

# howto\_um\_Change connection/entry points for PGAnywhere

Virtual Client main page

#### Description

This Wiki page describes how to change the connection/entry point for PGAnywhere for the most common end devices and operating systems. In this example, the connection/entry point is changed from "pganywhere.partnersgroup.com" to "emea-dr.pgaynwhere.partnersgroup.com".

iOS (iPhone and iPad) OSX (Mac) Windows

Please make sure you are always using the latest version of the client: https://www.vmware.com/go/viewclients
